INQUIRY RULING

AMENDMENT TO PROTECTIVE MEASURES PROTOCOL

The Panel, having considered a number of Protective Measure applications for witnesses to give evidence anonymously or privately, have made the following ruling:

The process for considering protective measures applications shall be amended to remove the requirement to provide a copy of the protective measures application to the Interested Parties for consideration before being considered by the Panel. The Protective Measures Protocol has been amended accordingly and the amended version will be uploaded to the Inquiry's website.

Signed:

Frances Oldham QC
